

AN INDUSTRY LEADER IN

HIGH-QUALITY CUSTOM METAL FABRICATION

FRANKLIN'S CUSTOM METAL COMPONENTS ARE IDEAL FOR:

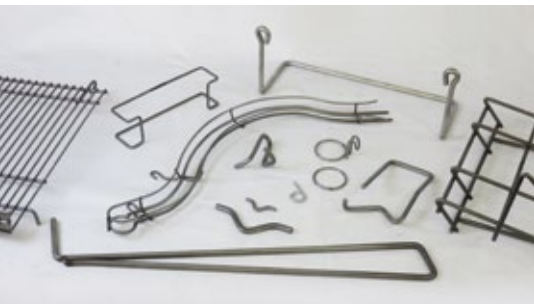

- Point-of-Purchase Displays
- Consumer Products
- Store Fixtures
- Food Service
- OEM Parts
- Medical Equipment
- Enclosures

Since 1978, Franklin Display Group has been an industry-

leading fabricator of custom wire, sheet metal, and tubing components. Our in-house team of metal work specialists uses state-of-the-art technology and processes to design and fabricate high-quality metal parts for a variety of applications.

Our **decades of experience in custom metal work** mean we have the knowledge and capability to fabricate pieces that meet your specific industry standards. Just-in-time fabrication processes provide the flexibility to execute a range of order quantities from small one-off production runs to large repeat orders.

Partnering with Franklin for your custom metal fabrication needs ensures a final product that is competitively priced, delivered on-time, and engineered to last.

WIRE

SERVICES

Straighten & Cut
2D and 3D CNC bending
Panel Welding
Air Bending
Crimping

SECONDARY

Press Brake
Forming
Trimming
Chamfering
Swaging
Butt Welding

SPECIFICATIONS

TYPE: Mild, Stainless, Pre-Galvanized
DIAMETER: 0.105" to 0.375"
GRID PANEL SIZE: Up to 60" x 120"

SHEET METAL

SERVICES

Laser Cutting
CNC Turret Punching
CNC Press Braking
Shearing

SECONDARY

Countersinking
Drilling & Tapping
Deburring
Ring Rolling
Grinding & Buffing

SPECIFICATIONS

TYPE: Mild, Stainless, Pre-Galvanized, Aluminum
THICKNESS: 0.029" - 0.250"
SIZE: Up to 60" x 120"

TUBING

SERVICES

Laser Cutting
Saw Cutting
Bending
Swaging

SECONDARY

Deburring
Tapping
Punching
Mitering

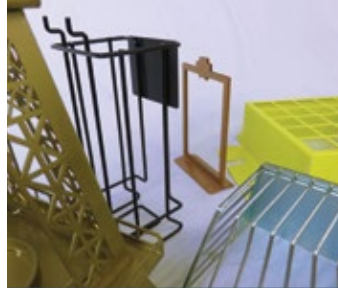

SPECIFICATIONS

TYPE: Mild, Stainless
PROFILE: Round, Square, Rectangular
THICKNESS: 11ga - 20ga
SIZE: 0.5" - 3.0"

WELDING

MIG/TIG
Resistance
Capacitive Discharge (CD)

FINISHING

Powder-coating
Plating*
Vinyl Dip*
*PROVIDED WITH OUR SUPPLY CHAIN

ASSEMBLY

Permanent Fasteners
Non-Permanent Fasteners
Complex Assemblies
Customer-Supplied Items

LOGISTICS

Packaging
Sub-packs
Truckload/LTL
Single-Package to Location

PRESS BRAKE

PANEL WELDER

CNC TURRET

FIBER OPTIC LASER

ROBOTIC MIG WELDER

TUBE LASER

OUR CUTTING-EDGE TECHNOLOGY & EQUIPMENT

LASERS

- (1) 6000W Fiber Optic Laser w/ Automation
- (1) 2000W Fiber Optic Laser w/ Automation
- (1) 3000W Fiber Optic Tube Laser
- (1) 2000W CO2 Laser

3D CNC WIRE FORMERS

- (2) Wire Benders - up to 5/16" wire
- (1) Wire Bender - up to 3/8" wire

WELDERS

- (3) CNC Panel Welders - up to 60" x 120"
- (45) Resistance Welders
- (1) CNC Resistance Welder
- (17) MIG Welders
- (2) TIG Welders
- (2) Robotic Welding Stations

SAWS

- Vertical Band Saws
- Horizontal Circular Saws
- Horizontal Circular Saw w/ CNC Control

STRAIGHTEN & CUT

- (5) Straighten & Cut Machines - 3/8" capacity

FASTENING

- PEM Setting Machines
- Pedestal Impact Riveter

PRESS BRAKES

- (15) CNC Press Brakes
- (7) Mechanical Press Brakes
- (4) Mechanical Punch Presses

MACHINING

- 3-Axis CNC Router w/ Vacuum Table
- Bridgeport End Mills
- Metal Lathes
- Autofeed Drill Presses

TUBE BENDER

- (1) CNC Mandrel Bending Machine
- (2) Bending Machines
- (1) Tube Rolling Machine

CNC TURRET

- (1) 18 Station, 22 Ton Turret

POWDER-COATING

- Automated powder-coating paint line and conveyor system

AIR-BENDERS

- (3) Double-Air Benders
- (3) Single-Air Benders

SOFTWARE

- Autodesk Inventor
- Solidworks
- AutoCAD
- CAD/CAM nesting software
- Adobe Illustrator & Photoshop
